Bethlehem ... the Gateway to Wheeling, West Virginia!

Bethlehem is an expanding community village located close to I-470 in Wheeling, West Virginia. Its beautiful ridgeline along Rt. 88 has helped in the development of several businesses locating in this area. Bethlehem's population of 2800 continues to grow as businesses are expanding and additional housing developments are being completed.

Bethlehem Elementary School sits in a central location in the village. The school has a close knit, family oriented atmosphere where parents feel free to come to their child's classroom and assist in activities, becoming part of the educational process. Together, with a caring staff, this promotes the goals for educating our youth.

2007-08 School Year

Grades K-5

112 Students

19:1 Student/Teacher ratio

Feeder School to Wheeling Middle

Special Programs:

Counseling

Gifted - Talented

Speech Therapy
