

PARENTAL REGISTRATION FOR NOTIFICATION LETTER

Dear Parent/Guardian:

Our school has adopted an Integrated Pest Management (IPM) Plan. An IPM Plan is a system in which pests are identified, action thresholds are considered, all possible control options are evaluated and selected controls are implemented. Control options, which include biological, chemical, cultural, manual, and mechanical methods, are used to prevent or remedy unacceptable pest activity. Choice of control options is based on effectiveness, environmental impact, site characteristics, student/staff health and safety, and economics. The goal of an integrated pest management system is to manage pests and the environment to balance benefits of control, costs, public health and environmental quality. Integrated pest management takes into account site-specific factors and takes advantage of all pest management options. Pesticides shall not be applied unless monitoring indicates pests are present.

IF YOUR CHILD SUFFERS FROM SEVERE ALLERGIC REACTIONS/ CONDITIONS PLEASE COMPLETE THE FORM BELOW AND RETURN IT TO SCHOOL AS SOON AS POSSIBLE. If you fill out the form below and return it to the school, you will be notified 24 hours prior to any pesticide spraying in our building.

Thank you for your assistance in this matter. Please do not hesitate to call if you have any questions and/or concerns (243-0375).
